BOOK AND JOB WORK HEATLY

SCROFULA OF LUNGS RELIEVED.

I am now forty-nine years old, and have suffered for the last fifteen years with a lung trouble. Several members of the family on my mother's side of the house had died with consumption, and the doc-tors were all agreed in their opinion that I had consumption also. I had all the dis-tressing symptoms of that terrible disease. I have spent thousands of dollars to arrest the march of this disease; I have employed all of the usual methods, not only in my own case, but in the treatment of other resembers of my family, but temporary reall of the usual methods, not only in my own case, but in the treatment of other members of my family, but temporary relief was all that I obtained. I was unit for any manual labor for several years. By chance I came into possession of a pamphlet on "Biood and Skin Diseases," from the office of Swift Specific Company, Atlanta, Ga. A friend recommended the need of Swift's Specific claiming that he had been greatly benefited by its use in some lung troubles. I resolved to try it. About four years ago I commenced to take S. S. according to: directions. I found it an invigorating tonic, and have used about fifty bottles. The results are most remarkable. My cough has left me, my trength has returned, and I weigh sixty pounds more than I ever did in my life, it has been three years since I stopped the use of the medicine, but I have had no return of the disease, and there are no pains or weakness fell in my lungs. I do the hardest kind of mechanical work, and feel as well as I ever felt since I was a boy. These, I know, are wonderful statements to make, but I am honest when I say that I owe my existence and health to-day to swift's Specific. It is the only medicine that brought me any permanent relief. I do not say that Swift's Specific will do this in every case, but most positively affirm that the man of the ment of the ment is the most positively affirm that the man of the ment is the most positively affirm that the ment is the most positively affirm th

I do not say that Swift's Specific will do this in every case, but most positively affirm that it has done this much for me and it would be recreant to the duty I owe for suffering humanity if I falled to bear this cheerful festimony to the merits of this worderful medicine. I am well known in the city of Montgomery, and I can refer to the best citizens in the city.

REFORMERS PLANS. WILL THEY JOIN IN RECTING DEM

OCRATIC DELEGATES 1 Meeting From Which It Appears That They Are Not Prepared to

A meeting of Monroe-Ward Reform Club, called by President Joseph M. Shelton, was held last night in the Skating-Rink, on Broad street between First and Foushee-Mr. Shelton in the chair, Mr. John S. Rady secretary. There were about thirty persons present—a few of whom were not residents of the ward, but all had acted with the Reformers in the last election.

It was understood that the object of the meeting was to ascertain the views pating with the Democrats in the electien of delegates to the Convention to nominate a candidate for Congress from this district.

THE CAMPAIGN. Ceuncilman Owen submitted a motion that a committee of three be appointed

to prepare resolutions embodying the sentiments of the members as to the congressional campaign.

The question, being put by the Chair, was decided in the negative.

A number of gentlemen said that inasmuch as the Club numbered between

four and five hundred men, they did not think it would be the proper thing for a matter of such moment to be decided by so small a number as were

present.

One member, who said that he had talked with forty or fifty voters who had determined not to attend, stated that objection was made over the ward to Mr. Shelton's calling this meeting nasmuch as Mr. Shelton had already committed himself by participating in the meeting which elected members of the City Democratic Committee.

This brought Mr. Shelton to his feet in explanation of his position. He claimed that from the ending of his aphe steadfast and unfaltering friend of labor, and so he expected to remain the rest of his life. But in the organization of the Reform movement last spring it was understood that it was for that campaign only, and that after the election each man would return to his arty-the Democrats to the Democrats, the Republicans to the Republicans. He knew that a great many people had voted with the Reformers with the distinct understanding that that would be the case. Every independent movepublican party, and he called attention to the fact that a member of the United States Senate, who is now a prominent Republican, but who had been elected as a Readjuster, had declared that he was "a better Democrat than Ben. MR. OWEN'S RESOLUTIONS.

The meeting having resolved to hear,

though not act on, the views of all who chose to present them, and the Chair having asked if any one had any resolutions that he cared to present with the view of having them voted on at a future meeting when there were more members present, Mr. Owen (councilbodying the platform which they would require any candidate for Congress ask-ing for their support to adopt.

These resolutions in the main ask for has been demanded by the Knights of Board of Examiners. commended the members of this Club to attend the Democratic Ward meetings with the view of choosing delegates to support a candidate in harmony with said views.

STATE OF THE COUNTRY.

Objections to the resolutions were heard from many members, though Mr. until there could be a full meeting.

Mr. Frank J. Reilly made a speech, friends in Congress, and he was sure that all that it was possible for our present representative to do had been done in their interest, and that the country is prospering under Democratic rule, as shown in the statement made by men out of employment in this country than at any time in the past twenty years. In this city he had been told the bosses in the machineshops would be glad to put on more men if they had places to put them, so crowded were the shops. What Mr. Reilly insisted upon was that the workingmen shall not abandon a good and ried friend merely to have it to sav that they had put one of their own people into Congress. They had the power, but they must exercise it, not yrannically, but wisely, and, knowing their intelligence and patriotism, he was

sure they would do it.

TAMMANY. Mr. Spurr, of Jefferson Ward, said that Tammany Club had resolved to take no part in the election of Demo-

cratic delegates to the Convention.

THE CAUSE OF LABOR. Mr. Connor (councilman) said that he had been a Democrat, but in the future was an Independent for the cause of labor, and he believed that that was the position of four out of five of the men who had carried the Reform banner to victory in May. "I am certain,' said he, "that it is the will of the people that the workingmen shall put candidate for Congress. As for the cribed by Mr. Randall, I know that the workmen at the Gosport navy-yard have been idle for months for want of an appropriation; I know that in our ister city of Manchester mechanics are pulling grass for minety cents a day. know this, too : that if the working

o friend." [Great applause.] In conclusion, Mr. Connor said that. in his judgment, the workingmen should nominate a candidate and send him to

man is not his own friend, then he has

NO FEAR OF REPUBLICANS. Mr. Devine was opposed to action on this question in such a meeting as this. If you want to find out the sentiment of the workingman go to that order which has been a godsend to himwhere men believe what is told hem." There need be [alluding to a remark of Mr. Owen, probably) no fear of the Republican party, so far as this city is concerned. But the fact is that the workingman is crying for bread, and he don't care whether the hand that hands it to him is Democratic or Republican. Nor is it, as Mr. Shelton says, "a local affair"; already it is a national affair, and in a few years the t. What we want is laws-not

tion of his views, whereupon Mr. Owen interrupted him with the question: "Are you not a candidate for Con-gress?"

This incensed Mr. Conner semewhat, and he said that he came to this meeting at the request of Mr. Owen himself, and he considered the question unbecoming a gentleman.

THE KNIGHTS.

The Knights of Labor having been referred to by many speakers, Mr. (Justice) J. M. Ryall said: "I disclaim that the Knights of Labor have anything to do with the decision of the question. I disclaim that the Knights of Labor, as an organization, ever had anything to do with politics in this city." But undoubtedly these are matters for the workingmen. "If," said he, "my voice could reach from one end of the land to the other, I would say: Serve no political party THE KNIGHTS. would say: Serve no political party longer; don't be tied to the tail of any party! If this ward says, Vote for George D. Wise, I'll do it; if it says, 'Stay away from the ward-meetings or primaries,' I'll do it. I am for neither party; I am for Labor." [Applause.] In the course of his remarks Mr. Ryall (who, by the way, is a fluent speaker) stated, anent Mr. Randall's claim of the prosperous condition of the country, that the average wages of the laborers and mechanics of this land " is

out sixty cents a day." MEET NEXT WEDNESDAY. After a good deal of discussion the Club resolved to have a committee of three to arrange for a meeting on next

Wednesday night.

The Chair (Mr. Shelton) said that with the consent of the meeting be the resolutions of Mr. would give the resolutions of Mr. Owen to the reporters [who had been present all the time] for publication. Several persons objected.

A voice: I move that they be laid

on the table. Another : I move that they be burnt. Much discussion followed, ended by Mr. Owen withdrawing the resolutions, with the purpose, however, of offering them on Wednesday night next. Then the meeting adjourned.

Whose Chickens Are They?

A colored man named George Baugh was before the Police Court yesterday morning charged with having in his possession a lot of chickens, supposed to be the property of some person unknown. The evidence showed that the accused was found about 4 o'clock yesterday morning with the chickens in basket, and his statements in reference to where he got them being contradictory, he was arrested. The case wa partially examined and continued until Saturday, to give the officers an opportunity to find the owner of the fowls There are nine chickens in all-two brown Leghorns, two white Leghorn hens, two Dominique pullets, and three common chickens. They are now at the Police Court-room in a coop.

Sale of Delinquent Lots.

On the 20th of September Assistant Treasurer S. G. Tinsley will sell by auction all the lots of land in Richmond delinquent for non-payment of State taxes between the years 1876 and 1883, for dues, amounting in all to about \$25,000.
On September 25th he will sell the

lands and lots in the city delinquent for 1884, and about January or February will sell those delinquent for 1885.

Persons interested should examine the lists, which may be seen either at Mr. Tinsley's office, or at the office o

CITY-HALL TANGLE.

PROBABILITY OF A VETO FROM MAYOR CARRINGTON.

Trouble Arising from the Recent Ordi nance Being Passed by Less than a Two-Thirds Vote.

The ordinance by which the City Council delegates to its Committee on Grounds and Buildings plenary power in the matter of building the City Hall and allows the committee to adopt either the Myers or the Wait & Cutter plan has not yet been sent to the of the Board of Aldermen, is at the White Sulphur Springs, and will not return for several days, and it is necesreturn for several days, and it is necessary to have his signature to the paper before it can be officially laid before the Mayor for approval or disapproval. Mayor Carrington, however, with a laudable purpose to forward the matter and to possess himself of information necessary to enable him to act in the premises, yesterday sent to City-Clerk August for a copy of the ordinance, and was sent the original resolutions. and was sent the original resolutions and the vote by which it was adopted. From this latter it appears that in the Board of Aldermen the vote was 9 to 5; in the Common Council 25 to 5. Now, the question has arisen in the Mayor's mind if the ordinance does not in fact appropriate money. There is to the credit of the City Hall fund about \$280,000, and the City Council pro-

poses to authorize the committee to build the Hall by either the Myers or the Wait & Cutter plan. The Council is aware that by either plan the building will cost largely over \$300,000, and by authorizing the committee to pro-ceed to build, it, to that extent, makes a vote of the necessary money in excess of that in hand, and to so appropriate that money requires a two-thirds vote of each branch of the Council, while the ordinance did not receive a two-thirds

rote in the Board. The Mayor proposes to consider this and all other questions involved, and if, in his opinion, the ordinance is illegal, he will veto it; but as yet he has, of course, not arrived at a conclusion.

The Council Committee on Grounds and Buildings will hold a special meet-ing to-night at the City Engineer's office to consider the situation. If the ordinance is returned the City Council will no doubt have called meetings and repair the existing defects. Council and the people are tired of

legally may, will no doubt co-operate to HANCHESIER MATTERS. Walker's Accused Assailants Sent

On-Chasing a Burglar. The continued case of Alberta Wood and Thomas Johnson (both colored), charged with shooting Washington Walker, with intent to kill, was called in the Mayor's Court yesterday morning for preliminary examination. Walker having died at the almshouse in Richmond the Monday night after he was shot, the charge was changed yesterday to murder. The accused were represented by Judge John H. Ingram and C. V. Meredith, Esq.; and Common-wealth's Attorney Page appeared for the prosecution. The case has created sensiderable interest, and the cramped. gentlemen—or rather of the highest of them—by Dr. Isaiah H. White. If No. 1 is found to be physically ineligible, then the choice falls on No. 2. Hustings Court-room, but this being refused, he had the room to be used cleared of all persons except those connected with the case in

the officers of the court. Several of the Commonwealth's witnesses being absent, Mr. Page moved a continuance, which was resisted by Mr. Meredith and overruled by the Court. The examination proceeded soon after 10 o'clock and lasted for several hours. Drs. Mathews and Ingram testified as to the condition of the man when they attended him, a few min-Lipscomb made a statement concerning the arrest of the parties accused, and in the course of his testimony said that Alberta had a fresh scar on her neck when arrested, the day after the shooting, which seemed to have been made by a finger-nail, and which she said was made by a colored man named

Richard Mathews.
Dr. Chris. Tompkins, of Richmond. who was acting Coroner at the time of Walker's death, and who held the post-mortem examination, said that he considered the congregations of blood on the right side of Walker's head the immediate cause of death. The collection of blood outside the skull was 11 by 94 inches; the one inside, upon the membranes of the brain, three by one and a half inches. These patches were irregular. It was probable that the wound from the pistol-ball felled him to the earth, and that his head coming in violent contact with the pavement caused these bruises. The witness thought the man would have died from the pistol-wound. but not in the same manner nor at the same time that he did die. The wound, in all human probability, would have proved fatal of itself alone Dr. Tompkins was closely cross-ques-tioned, but no new points were brought

John Walker (colored) said he saw Berta in company with another woman, whom he did not know, going from Richmond to Manchester on the night After about a dozen other witnesses had

been examined the prisoners were sent on to the grand jury. The defence did not introduce any witnesses. One fact that operates in favor of the prisoners is that one of the witnesses swears he saw Johnson in Richmond about 9 o'elock that night, and two others are equally as positive that they saw him at a barber-shop at the head of Man-chester about the same hour the same night. The distance between the two places is over two miles.

Tuesday night a little before midnight Mr. James Lipscomb, Jr., who

lives on Nineteenth street near the Petersburg railroad, was awakened by a suspicious noise on his premises. He got up, went to the door, and saw a man run out of the yard and go down towards the railroad. He dressed quickly and went down to see if the man had concealed himself among the cars that were standing on the track. As he (Mr. Lipscomb) was walking down the track a man whom he recognized as a "chunky negro with a moustache" fired three pistolshots at him. The negro was standing in the door of a box-car, and one of the bullets passed through Mr. Lips-comb's coat-elseve. Mr. Lipscomb went back in the house to get his pistol, but when he returned to the car the negro had disappeared. An hour

however, took effect.

Early yesterday morning a bright mulatto man, about twenty-one years of age, was found sleeping in a box-car near Mr. Lipscomb's. He was taken before the Mayor, and said his name was John Branch; that he came from Boston, Mass. Mr. Lipscomb was summoned, but failed to identify Branch as the one who did the shooting or was the one who did the shooting or was on his premises. There was no evidence against the accused; so the case

The Capitol Square, Present and Pr

At some time in the future a new State-House will presumably be built. It will be larger than the present one, and will require more space. A horar hall is also needed, and, necessarily, a a place in which to locate it. A stee to required for the Lee monument, and some advocate the Capitol Square as the appropriate place For various reasons, more space being needed, would it not be a good idea for the Capitol grounds to be extended so as to include the new City Hall lot (this building to be located eisewhere) and the squares to the right and left of it? The wide thoroughfare of Broad street would then be the northern boundary of the grounds, and, with the increased space obtained, some fifteen feet could be spared to increase the width of the other boundary streets (Ninth, Bank, and Governor), and we would have a fine park, surrounded by noble avenues, and large enough to hold the structures

mentioned, and also to furnish a good parade-ground for the military. Meantime, cannot the lamp-post lecated in the main walkway of the square and obstructing a view of the Washington monument be removed. and, if need be, substituted by two amps, one on each side of the avenue. but out of the way of the monument? Indeed, could not the whole arrangement of the wires be altered by the use of subterranean pipes, so far as the Capitol Park is concerned? At present the "Square" is rather suggestive of a
